

# GRAND JURY SEEKS GAMBLERS WHO PAID FOR SERIES FIXING

Indictments Returned Against  
"Brown" and "Sullivan,"  
Identity Unknown

## TWO MORE CONFESS

Williams and Felsch Tell Their  
Part in Throwing Games—1920  
Series Fixed, Is Report

Sept. 29.—Confessions of Claude Williams and Oscar Felsch, admitting they were bribed to throw last year's world series, were made public today, and at the same time the grand jury investigating the scandal took its first action against gamblers who are said to have arranged the deal, by indicting two men whose identity was only partly revealed.

"Brown" and "Sullivan" were the names under which true bills were returned against the alleged gamblers. Both were said to be from Boston, New York. Later, however, it was out that the jury believed these names to be mythical and used only to mislead the men when they discussed their "throwing" with the ball players.

Possibility that they are two men whose names already have been brought before the jury and who are not known, was expressed by the officials in the state attorney's office.

## Other Ball Players Involved

It was reported that true bills against two National league players were being considered.

Evidence already placed before the grand jury, it is known, involves Abe Latham, former prize fighter; Lee Macomber, Hal Chase and Heinie Zimmerman, former members of the Giants; and eastern gamblers, whose names have not been divulged, and at least two National league players. Harley Hodge, assistant state's attorney, who today confirmed these facts, admitted that 10 or 12 indictments were expected.

The eight players indicted are "ap- proximately only tools of a gambling ring," according to Harry Brigham, chairman of the grand jury. The ramifications of this ring, he said, extend wherever that professional baseball is played.

The grand jury, whose normal period of office expires tomorrow, will be kept indefinitely to complete the baseball investigation, he said.

## Costly For Comiskey

Indictment of his seven players cost Charles A. Comiskey, owner of the White Sox, \$230,000, the amount for which he could have sold their services, he said today. The club owner said the valuation of the seven at Joe Jackson, \$50,000; Buck Weaver, \$30,000; Oscar Felsch, \$50,000; Claude Williams, \$25,000; Eddie Cicotte, \$25,000; Charley Felsch, \$20,000; Fred McMillan, \$10,000; total, \$250,000.

The grand jury today sent a telegram to Eugene Dubois, of the Toledo team of the American association, formerly with the Detroit Tigers and New York Giants, asking him to appear here Monday.

Cicotte told the jury that he understood the eight players were to get \$50,000, but that they were dissatisfied with the gamblers and so far as he knew only three, himself, Jackson and Williams, ever received any money for throwing the series. The amounts they were to have received, he said, were: Eddie Cicotte, pitcher, \$10,000; Claude Williams, pitcher, \$10,000; Charles Felsch, shortstop, \$10,000; "Buck" Weaver, third baseman, \$5,000; Joe Jackson, left fielder, \$5,000; "Happy" Felsch, center fielder, \$5,000; "Chick" Gandil, former first baseman, \$20,000; Fred McMillan, utility player, \$15,000.

## Series Fixed in Hotel Room

The statement by Williams and the newspaper reports of Felsch's confession tallied with those made by Eddie Cicotte and Joe Jackson. They revealed that last year's world series was fixed in a tiny room in a small fifth floor hotel.

In this room, occupied by Eddie Cicotte, once the American league's leading pitcher, the deal was made which "threw" the world series, wrecked a world's championship team, brought some of the greatest stars in baseball into disgrace.

According to the sworn statement made by Claude Williams, who lost the game, the world series games, he and Chick Gandil, Buck Weaver, Eddie Cicotte, who lost two games, and Happy Felsch, whose error helped to lose a game, met here to barter with Brown and Sullivan to lose the series.

## After We Had Agreed that We Were Going to Throw the Series

Williams said he received \$10,000 and that he gave \$5,000 to Jackson. A statement which tallies with the confession made by Jackson yesterday, he was supposed to get \$20,000, he said.

## Felsch's Error Was Accidental

Felsch, according to reports of his confession, said he received \$5,000, which he found in his locker at the club house, but that he never had a chance to really lose the series.

"His one glaring error of the series, when he dropped a fly ball, was an

# ANTI BRITISHERS MAKE INTRUSION

Break Up Carnegie Hall Tercentenary Celebration of Landing of Pilgrims

## EJECTED BY POLICE

Women Pickets Carry Banners Attacking Officials at Meeting as "British Spies"

New York, Sept. 29.—Police were called to Carnegie hall tonight to eject a crowd of men and women who forced their way into the building during the tercentenary celebration of the landing of the Pilgrims.

The intruders, carrying banners with anti-British inscriptions, created disorder with their shouts of "Hurrah for America" and "Down with England!"

The disturbance reached such proportions that it was impossible for the speakers to continue and it was decided to adjourn the meeting without further attempts to complete the program.

A group of women who said they were members of an organization known as "The American Women Pickets for the Enforcement of America's War Aims," led the intruders. Some of the banners they carried bore the names of British delegates to the tercentenary celebration and characterized the delegates as "British spies."

## Report Same Gamblers Plan Crooked Series for This Year

New York, Sept. 29.—While a Chicago grand jury was investigating charges that the 1919 world series was "fixed," New York authorities today started an inquiry into reports that the same chieftains of gamblers planned a crooked series for 1920.

Acting on a newspaper story to the effect that members of the Brooklyn Robins, winners of the National league pennant, were to be bribed to lose to the Cleveland Americans, District Attorney Lewis of Kings county summoned all members of the local team to appear before him Friday morning. At the same time he telegraphed to Chicago for any evidence available there.

## Chick Gandil in Hospital

Houston, Texas, Sept. 29.—Chick Gandil, former White Sox ball player, named as one of the ring leaders in the plot to throw the 1919 series, today was at a hospital in Lufkin, Texas, recovering from an operation for appendicitis.

No one was permitted to see Gandil, but the former star player issued this statement through his physician:

"There is absolutely nothing I care to say regarding the charges made, and I shall not attempt to make a statement of any kind until my physicians have informed me that my condition will warrant me returning to active work."

## ENGLAND AND IRELAND ONE

Cannot Stand Separation, Viscount Gray Says in New Proposal on Irish Question

London, Sept. 29.—Viscount Gray, former ambassador to the United States, in a letter to the Westminster Gazette today, puts forth new proposals for the solution of the Irish problem. He declares the present home rule bill is not accepted by anyone, and says:

"The only practicable policy that offers any prospects of success seems to me to have three cardinal points. First, a definite announcement that for these islands of Great Britain and Ireland there can be only one foreign policy, one army and one navy; and that we cannot stand separation in these matters any more than the north could stand the separation of the south in the United States."

## COMMANDER GURNEY AT BIG I. O. O. F. GATHERING

Boston, Sept. 29.—The Odd Fellows of New England, their sister body, the Daughters of Rebekah and the Patriarchs Militant, the uniform rank, marched through Boston streets today in the closing feature of the annual commemoration of the foreign grand lodge of the order, the members of which reviewed the hosts who have multiplied from the small band formed in this city a century ago.

## GOODY, WHITE HOUSE SHEEP

Washington, Sept. 29.—The last of the White House flock of sheep were rounded up today, preparatory to shipment back to the farm where they were born. Some already have been disposed of, but the bulk of the flock, turned to William Woodward at Bel Air, Md., who sent the sheep to the White House during the war days when the laws needed trimming and wool was in demand.

# GAMBLER "SULLIVAN" IS WELL KNOWN IN BOSTON

Boston, Sept. 29.—Joseph "Sport" Sullivan, who was named by pitcher Claude Williams of the Chicago White Sox today as one of the gamblers behind the deal which fixed the last world series, has been a prominent figure at major league games in this city for years. Sullivan was formerly a broker with offices here. He could not be located this afternoon for comment on Williams' disclosures. Men familiar with the gambling group in the city said they could not identify the "Boston gambler named Brown," who also was mentioned by Williams as one of the principals in the deal.

# MILLER OPPOSES U. S. JOINING THE LEAGUE

Says It Would Mean Surrender of American Nationality in World Super-State

New York, Sept. 29.—Nathan L. Miller, Republican candidate for governor, at a Union League Club rally here tonight, declared the entry of the United States into the League of Nations would mean surrender of American nationality and independence in a world super-state.

"Governor Smith takes issue with me for suggesting that national issues are paramount in this campaign," said Judge Miller. "True, as he says we live in this state and under its laws, but state power has been subordinated in expanding federal power very much as Mr. Wilson, if he could have his way, would subordinate our nationality to a new world government of ever-expanding powers."

## Shouts as Anthem Starts

Two men wearing uniforms of the United States army and carrying the American flag, also left the stage.

When the piano and organ that accompanied the chorus broke into the strains of the British anthem, shouts arose in various parts of the hall. The instruments continued, however, and part of the chorus and audience started singing the words of "America."

## Depew Praises the Pilgrims

New York, Sept. 29.—The Pilgrims were the first Americans to reject the principles of communism, former Senator Chauncey M. Depew declared at a luncheon given here today by the American branch of the Pilgrims to foreign delegates taking part in the Pilgrims tercentenary celebration.

The pilgrims, he said, disregarded this opportunity, although they had both freedom of action and a whole continent on which to practice. Though their colony was starving, the pilgrims chose to stand on the basic principle of human effort and success, he added.

## LARGEST SHIPMENT OF GOLD

New York, Sept. 29.—The largest shipment of gold—\$10,750,000—ever transported across the Atlantic, is being brought to New York on the White Star liner Baltic, which left Liverpool September 27. It was reported here today. The gold is consigned to American bankers.

The largest previous shipment from abroad of which there is any known record was approximately \$8,000,000.

## ADMIT NAGLE TEMPORARILY

Washington, Sept. 29.—Temporary admission to this country of Alfred Nagle, the so-called envoy of the Latvian government, and his wife, who have been detained at Ellis Island for the last month, was announced today by the department of labor.

## NINE PERSONS INJURED IN ALBANY TROLLEY ACCIDENT

Albany, Sept. 29.—Nine persons were taken to hospitals as the result of a trolley car accident late tonight. While ascending a steep grade, the motorman lost control of the car, which backed down the hill, crashing into a curbstone at a curve and overturning. There were 15 passengers, and all were badly shaken up. At the hospital, it was stated that it was not believed that any of the injuries would prove fatal.

# HARDING HAS A NARROW ESCAPE

Special Train Escapes by Hair's Breadth Serious Wreck in West Virginia

## BUT TRIP CONTINUES WOULD DEBAR JAPS

Nominee Alludes to Incident in Convention Passes Resolution Urging Cancellation of "Gentlemen's Agreement"

On Board Senator Harding's Special Train, Sept. 29.—Senator Harding's special train escaped a serious wreck by a hair's breadth today, as it was carrying the Republican nominee across West Virginia on the last leg of his campaign trip.

His private car, "Ideal," left the rails near Millwood, a small mountain village, and with its trucks lurching themselves to pieces over the railway ties, was dragged across a high and narrow trestle at the rate of 20 miles an hour. The train came to a stop beyond the chasm just as the rear wheels of the Ideal veered off the ties entirely and buried themselves in the gravel.

The other cars of the train did not leave the rails and no one was injured. A defective coupling in the front truck, which was jolted to pieces as the car crossed a switch, was blamed by train officials for the accident.

"Tonight, the special," minus the abandoned "Ideal," turned northward for Marion, the Senator completing his three days' trip with two evening addresses in Ohio.

## Urges Economy in Government

During the day, he had spoken in a half dozen West Virginia cities and had addressed a big afternoon meeting at Ashland, Ky.

Americanism, representative government, and governmental economy featured the nominee's speeches, and he also touched on most of the other issues of the campaign. He condemned "pork barrel" river and harbor legislation and asked for a more efficient development of the nation's inland waterways. In one of the two speeches he made at Parkersburg, W. Va., he replied to Governor Cox's comparison of the slogans "America First" and "Deutschland Über Alles," and speaking to a crowd at the railroad station at Mason City, W. Va., he compared his abandoned private car to the American car of state.

## Roosevelt on Harding's Trail

Wheeling, W. Va., Sept. 29.—Greeted by an enthusiastic crowd which packed the auditorium here in which Senator Harding had spoken 24 hours before, Franklin D. Roosevelt, Democratic vice presidential nominee, tonight bitterly attacked the labor record and tariff policy of the Republican presidential candidate and again challenged him to "state plainly and definitely" his attitude on the League of Nations.

## Cox Doesn't Think Armed Force Would Be Required With League

Toledo, Kan., Sept. 29.—Force as an element of the League of Nations was discussed by Governor Cox in his travels in Kansas and Missouri, during his tonight with a meeting at the auditorium.

"I believe that the moral influence will be sufficient," he declared, but indicated that behind moral force it was necessary to have armed force. He paralleled the case to the country shortly after he said, in solemn tones, that he would be the first to carry out the force if necessary. The governor also said Colonel Roosevelt criticized the Hague tribunal for lack of force.

# CINCINNATI MAN IS CHOSEN HEAD OF AMERICAN LEGION

## Urges Educational Campaign

On recommendation of the Americanization committee, the convention voted that the National Americanism commission be adequately financed, that its activities be concentrated on a nation-wide educational, Americanization and pro-American work and propaganda, adequately financed, and that its office be moved from New York to become headquarters at Cincinnati.

Other outstanding features of the report adopted by the convention were:

League of Nations study of labor needs of Hawaii in view of the need for an adequate supply with Japanese immigration cut off.

Continuation of the work of the department of Hawaii in securing preference for American citizens in employment and demanding citizen labor on federal work.

# BARS SOCIALISTS FROM INTERVIEWS

Secretary Colby Charges Two Reporters With Misusing the Privilege

Washington, Sept. 29.—Secretary Colby announced today that Paul Hanna, correspondent of the New York Call, a Socialist newspaper, and Laurence Todd, associated with Mr. Hanna in the Federated Press bureau, would not be permitted in the future to attend the daily conference which the secretary holds with the newspaper correspondents.

The announcement was made at the regular morning conference with the correspondents and after the secretary had read a letter written by Mr. Hanna, to Fred A. Emery, head of the information bureau of the state department. Mr. Hanna charged in the letter that Mr. Colby was using the conferences with the newspaper men as a means of inspiring the press with views of his own and that he also had put wrong interpretations on the news.

## WORLD'S LARGEST WIRELESS STATION OPENED AT NAUEN

Nauen, Germany, Sept. 29.—(By wireless to the Associated Press).—The completed wireless sending station here, the largest in the world, was officially dedicated today in the presence of an invited company, including foreign representatives and scientists.

President Ebert, who spoke at the function, after congratulating the German makers of the plant on their skill sent broadcast a message opening the new service.

The towers and antennae which serve America, just completed, have a sending radius of 12,000 miles and a capacity of 75 words per minute.

## HINSHAW URGES GOV. COX TO COME OUT FOR PROHIBITION

New York, Sept. 29.—Virgil G. Hinshaw, chairman of the Prohibition National committee, announced today he had sent the following telegram to Governor Cox:

"Now that Tom Taggart, of French Lick Springs, Ind., a candidate for the United States senate on the Democratic ticket, who is generally accredited as being a vital factor in your nomination, has declared openly and emphatically in favor of the Volstead law and his opposition to any increase in the alcoholic contents of beverages can you not join your compatriot and declare in the manner for the spirit as well as the letter of the constitution?"

## CALIFORNIA'S ATTITUDE TOWARD JAPS RESENTED

Tokio, Sept. 29.—According to "The Asahi," Marquis Shigeru Okuma, former premier, has declared to devote himself to awakening the Japanese people against "the unfriendly attitude of California Americans." To further his purpose, the newspaper says, Okuma will call a meeting of 100 prominent statesmen, politicians, diplomats, scholars, business men and publicists at his residence to exchange views on the subject.

## PENNANT RACE AT A GLANCE

Cleveland Leads Chicago by One and One-Half Games — White Sox Idle Yesterday.

New York, Sept. 29. — Cleveland, by defeating St. Louis today, went another half-length ahead of Chicago in the pennant race for the American League. The White Sox were idle and as a result now trail the Indians by one and one-half games. Although New York completed its schedule with a double victory over the Athletics, the Yankees were formally and finally put out of the race so far as the pennant is concerned by Cleveland's victory. The latter has four games to play and if the team follows all of them the Indians still would be one game ahead of the Yankees.

To settle the race between Cleveland and Chicago, the former to win must take three of the remaining four games, provided Chicago wins the three remaining games on its schedule. While the Yankees were eliminated today as pennant contenders, there is still a mathematical possibility of the team tying the White Sox for second place, but in order to bring this about, the White Sox would have to lose their three remaining games.

## YANKES OUT OF IT

Double Victory Over Athletics Not Sufficient to Put Them at Top.

Philadelphia, Sept. 29. — Six home runs featured New York's double victory over Philadelphia today, 7 to 3 and 2 to 1. The second game went 11 innings, hastily weakening after shutting out New York for nine innings. He relieved Naylor after Lewis' home run into the left field bleachers with two on bases in the first inning. C. Walker had one home run in each game. Ruth's fifty-fourth homer of the season came in the ninth inning of the first game with Ward on base. It was a drive over the right field wall.

Score, first game: R H E New York 010013002—7 11 2 Philadelphia 110000010—2 10 4 Batteries — Collins and Hannah; Harris, Keefe and Perkins.

## CLEVELAND WINS AGAIN

Makes Clean Sweep of Series With St. Louis.

St. Louis, Sept. 29. — Cleveland gained another lap on Chicago in the struggle for the American League cham-

ampionship today, winning from St. Louis, 19 to 3, making a clean sweep of the four-game series. The victory puts the Indians a game and a half ahead of the White Sox and in a position to clinch the pennant by winning three more contests.

Today's game was a virtual walk-over for Cleveland, Weisman, who was knocked out of the box by the league leaders Sunday started again and in addition to being hit freely issued five bases on balls, finally leaving after the seventh inning with the visitors holding a five-run lead. VanGilder, who succeeded him, also was wild and made two errors that let in three runs. Coveleskie was master of the situation, keeping his hits well scattered and would have had a shut-out but for errors by Gardner and Sewell.

Speaker, Wood and O'Neill led the attack for the visitors, the latter's double in the first inning driving over two runs and sending Cleveland off ahead.

Score: R H E Cleveland 021020031—10 12 4 St. Louis 001000001—2 5 5 Batteries — Coveleskie and O'Neill; Weisman, VanGilder and Severeid.

## RECOVERS VIOLIN STOLEN YEARS AGO

After more than a year of fruitless search for his \$2,500 violin, during which time his only thought was that "it would return for it had a soul," Harold Stern, orchestra leader in the Park Avenue hotel, New York city, bugs once more the cherished instrument. In March, 1919, the violin was stolen from Stern while dancing with a party of friends. Every effort to recover it was in vain.

Last night in the hotel dining room Miss Sadie Wallner of 152 Madison avenue and Miss Blanche Berger of Lancaster, Pa., stopped for a moment to chat with the orchestra leader. The former asked the leader where she could purchase a bow for a fine instrument. Mr. Stern consented to inspect the violin at Miss Wallner's home. He was shown the violin and as he drew the bow across its strings he immediately recognized it as his own. At police headquarters he told his story to the lieutenant. Miss Wallner told detectives that she had bought the violin from a man living on East 158th street.

"You say violins have no soul. Bah!" exclaimed the leader, when he was assured by the lieutenant that the instrument would be returned to him. He is shown in the photo with the violin.

## WON WIFE BACK AGAIN

Man Returned From War to Find Woman Married to Another.

Informed in 1918 by the Canadian government that her husband, Henry Curtis, had died as a result of being gassed in battle, Mrs. Esther Warren Curtis of Kansas City, Mo., married Eugene Peel, who had been a suitor for her hand at the same time that Curtis was wailing her.

In June, 1919, almost three years after she had married Peel, Curtis reappeared. He said he had been gassed, had spent months in a hospital, much of the time delirious, and that all marks of identification had been lost.

Curtis discovered his former wife had married Peel and asked her to choose between them. Mrs. Esther Warren Curtis Peel decided she liked husband No. 1 best and so informed Peel. Husband No. 2 applied for and was granted a divorce.

Surgeons Make It Possible for Italian to Sing His Popular Airs.

The surgeon's knife applied to the fastened tongue of Ardino Muzzi, in the Manhattan Eye, Ear and Throat hospital, in New York city, has made it possible for the muscled Italian to sing his beloved arias.

Before he entered the hospital Ardino could be found swinging a heavy butcher's knife in the basement of the Hotel Pennsylvania. His tongue had been tied since his birth in Italy and this prevented him from pronouncing clearly the words of the operas he knows and sings and lones. Now Muzzi plans to work and study until he climbs the rungs to the grand opera stage.

## CHINA'S FINANCES LOW

Peking Government Losing Financial Strength Monthly.

The Chinese government is running behind financially \$10,000,000 to \$12,000,000 monthly according to a report made by an attaché of the cabinet. The administrative debt of the nation totals \$270,000,000, of which \$130,000,000 represents loans by Chinese banks. The monthly budget aggregates \$18,000,000, with only \$8,000,000 to \$20,000,000 available from ordinary sources of revenue. Of this monthly expenditure more than 70 per cent goes for military upkeep. To meet the monthly deficit drastic retrenchment is said to be contemplated.

## EXTENSION OF PRICE READJUSTMENT FELT

Responsible for Further Depreciation of Quoted Values on Stock Exchange Yesterday

New York, Sept. 29.—Extension of the recent readjustment in the various commodity and merchandise markets was primarily responsible for the further irregular depreciation of quoted values on the stock exchange today.

One of the significant developments of the session, as affecting the general credit situation, was the news that the Federal Reserve bank of Kansas City had advanced discounts on Liberty bonds and Victory notes from 5 1/2 to 6 per cent.

Local bankers were of the opinion that institutions at other reserve centers may deem it necessary to resort to similar measures as a partial safeguard against the undue expansion of loans.

Announcement of additional price revision by automobile manufacturers, a sharp cut in steel plate, and suspension of operations at three of the mines of the Anaconda Copper company, in Montana, testified to the unsettled conditions in many lines of raw and fabricated materials.

"The Iron Age" confirmed reports of further shrinkage of iron and steel buying, due chiefly to the state of automobile trade, and predictions were freely made of an early reduction in pig iron and refined copper.

Stocks opened at materially higher levels, especially in the transportation division, but reacted abruptly before midday, when heavy selling partly of professional origin was resumed throughout the entire list. Variable rallies ensued in the final dealings, regardless of a rise in call loans to eight per cent.

Foreign exchange again moved against home centers, the London rates falling almost three cents under its maximum of the early week. Prospective arrival of a very large consignment of British gold to strengthen the reserves of the Federal Reserve bank was announced.

Speculative rails and local tractions were strong features of the bond market, Liberty issues showing mixed changes, with no especial alteration of international prices. Old United States bonds remained unaltered on call.

## Catch Blue Lobster Off

Shore of Massachusetts

Nantucket, Mass.—Capt. Sylvia of the steamboat Sankaty was presented with a rare—blue lobster. A fisherman brought him ashore, much elated over his rare find, and handed him over with some pomp and ceremony. The freak was a deep, rich navy-blue in color, instead of the customary green, but, boiled, he turned red, just the same as his ordinary brother.

"Jes' Call Me Jim," was adapted from the famous novel "Seven Oaks," by J. D. Holland. It was chosen for picturization on the request of Mr. Rogers, who saw in the character of Jim Fenton a part that would fit him better than any role he has ever had. The book has been widely read.

Would you expect the prettiest girl in Seven Oaks to fall in love with the homeliest man? Not likely.

But if that man was Will Rogers — what then? Of course that's different. It all happens in a different kind of a picture that you can't afford to miss.

## Nervous Breakdown

"I am so nervous it seems as though I should fly"—"My nerves are all on edge"—"I wish I were dead." How often have we heard these expressions or others quite as extravagant from some loved one who has been brought to this state by some female trouble which has slowly developed until the nerves can no longer stand up under it. No woman should allow herself to drift into this condition without giving that good old-fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound a trial.

### Read the Letters of These Two Women.

**North East, Md.**—"I was in ill health four or five years and doctored with one doctor after another but none helped me. I was irregular and had such terrible pain in my back lower part of my body and down each side that I had to go to bed three or four days every month. I was very nervous, tired, could not sleep and could not eat without getting sick. A friend asked me to take Lydia E. Pinkham's Vegetable Compound and I am sorry I did not take it sooner for it has helped me wonderfully. I don't have to go to bed with the pain, can eat without being sick and have more strength. I recommend your medicine and you are at liberty to publish my testimonial."

**ELIZABETH WEAVER, R. R. 2, North East, Md.**

**Minneapolis, Minn.**—"I was run down and nervous, could not rest at night and was more tired in the morning than when I went to bed. I have two children, the youngest three months old and it was drudgery to care for them as I felt so irritable and generally worn out. From lack of rest and appetite my baby did not get enough nourishment from my milk so I started to give him two bottle feedings a day. After taking three bottles of Lydia E. Pinkham's Vegetable Compound I felt like a new woman, full of life and energy. It is a pleasure to care for my children, and I am very happy with them and feel fine. I nurse my baby exclusively again, and can't say too much for your medicine."

## NEW JUMP IN IMMIGRATION

Increase of 20,000 in Week Laid to Typhus and War in Europe.

Washington, D. C.—Immigration officials here profess to be mystified at the sudden increase in immigration which approximated 20,000 persons last week; and, it continued, would add 1,000,000 to the population of the country in a year. Louis F. Post, assistant secretary of the department of labor, said today no information has yet reached the department which will explain the situation.

"But I have a theory about it," said Mr. Post. "I am inclined to think that many of these people are coming here to get away from conditions at home and that the condition is only temporary. Only last week a ship was held up at quarantine with typhus aboard, and the war is not yet over in Europe. Either one of these conditions would naturally make a lot of people anxious to get away."

## THE BASEBALL SCANDAL

New that the baseball scandal, which for months has been scoundering and shuffling off at least an unwholesome odor by way of suggestion, is in the open and, which is perhaps worse, is definitely acknowledged by several of the men accused. It is at least proper to acknowledge the main part which by some of the leaders of the professional sport has been taken. In particular there is President Comiskey, owner of the White Sox, a team which at least had a fighting chance of winning the National pennant, who comes out openly, admits the dishonest acts of several of his players, and fires each and every one of them instantaneously, even though such action has destroyed the last of his hopes of victory. With his crippled team he cannot expect to win, but that makes no difference with one whom nobody has ever accused of having a yellow streak. Cleotis and his seven associates in crime, through expulsion and loss of any possible further chance to get into a game which has paid them thousands of dollars yearly, are severely punished, but the courts before they get through with them will make their punishment still more drastic.

In fact, the scandal itself is not more surprising than the names and previous standing of the men who turned the crooked trick. There is Cicotte, 36 years old and 16 years a professional, eight years a leading star with the Chicago White Sox and destined apparently to hold his berth as long as his arm held out; Ficker, Williams, four years in Chicago, as also was Shortstop Hiebert; they and the five others all among the best men of the team and it would have seemed the most reliable; all men who had much to gain and everything to lose by dishonesty, and moreover all married, some of them with children. Yet these are the men to whom the devil in the guise of professional gamblers showed his kingdoms of the world and made his specious promises in their ears—and they fell for it.

There will be regret that such men should have fallen, but none that just punishment should have overtaken them. They took their chances and must bear what the present and future have in store for them; but while they are "getting theirs," the public will be less than half satisfied if the professional gamblers who hung the bait of tens of thousands before the players' eyes do not receive all that is coming to them in the way of punishment. And that, by the way, should be more than the law will impose on the players, since it was by their tempting that there fell the players, who in loss of occupation alone are paying a heavy penalty.

The whole situation appears to have been pretty well revealed. It was a necessary preliminary step toward cleaning-up baseball, in which largely public interest was centered, because it was believed to have been honest, clean and wholesome. If it is to survive it will be because the promoters of it demonstrate that it is just what they propose to have it from this time and this without reference to how much their own pockets may for the time being suffer.

## TEACHERS' CONFERENCE

Instructors of Milford and Oneonta meet at Normal School.

A conference of the teachers of the public schools of the towns of Milford and Oneonta was held Wednesday at the State Normal School building. Superintendent Frederick presided and there were 28 teachers in attendance.

The speakers included Miss Nina V. Short, county tuberculosis agent, who presented the health work of the county to the teachers; and Dwight Sanderson, of Cornell University, who is making a study of community life in rural communities and who speaks for the purpose of enlisting the teachers in securing information. Otsego and another county have been selected as typical for the purpose in mind.

Ralph Q. Smith, county leader of Junior Project work, outlined the work to be done during the winter months, included in which are two new projects—sewing and toilet and art school which will take up the work can form a club if at least five pupils will engage in it.

The last speaker was Miss Eliza Ferrier of the State Education Department at Albany. Miss Ferrier has charge of physical training in the counties of Otsego, Schoharie and Montgomery, and she outlined the work for the next six weeks in the schools.

A similar conference will be held today at Unadilla for the teachers of Otsego and Unadilla. The meeting yesterday was very interesting and much good resulted to the teachers.

## The Potato Crop

Reports came from Delaware county that potatoes are bushing and rotting badly. In this section only a few instances of rot among the potatoes are reported. Digging and hauling will begin in a few days. No market price has yet been announced although the price is expected to start at about \$1.00.—[Worcester Telegram]

## COMMENTS OF THE PRESS

### The Baseball Scandal

Baseball has become so established as the national game that the charges now being aired at Chicago have all the gravity of a menace to a national institution. The loss of the enthusiasm with which the true "fan" grows delirious over the exploits of the home team or a spectacle as he consents the umpire to pardon, is based upon the accepted belief and tradition that in reality the game is played on the square. If the "fan" actually believed that the umpire, whom he holds down as a "robber," were purchasable, the crowd in grand stands or bleachers instead of making uproar at imaginary injustice wouldn't be there.

Assurance is given that the whole affair will be proved to the bottom. It is essential if baseball is to prosper.—[Springfield Republican]

### Deportations From Samoa

Looking forward for the moment the humane considerations involved in deporting to Germany 252 men, women and children of German blood from their homes and from the community built up by 25 years or more of hard work in the Samoan islands, as told recently by a correspondent of the Chicago Tribune, one may well express complete disbelief in the wisdom of such a policy. In expelling these industrious, law-abiding people, the British officials acting on their own opinion though within the authority of the treaty of Versailles, really struck a blow against white domination of the Pacific. Deportation is a policy so short-sighted, so obviously inspired by a prejudice that it seems vastly stupid at best.

To denude Pacific territories of constructive white population is to play into the hands of the yellow race.—[Chicago Daily News]

### Consistent

The action of the legislature in declaring vacant the seats of the Socialist assemblymen was the only thing that could be done under the circumstances. If these men were unfit to sit as members of that body last winter, as was decided after a long and exhaustive hearing, they were unfit to sit as members now. That sort of leopard does not change his spots any quicker or oftener than any other sort of leopard. The Socialist party may have made some modifications in its platform of principles, smoothing off the roughest edges and making it appear to be more American in character, but the same springs move its action. If a marauder threatens your home and forces himself in and you finally throw him out, it remains unsafe to give him the glad hand of welcome when he comes back and does the same thing, although in milder language.—[Utica Observer]

### No Escape

In the United States new high schools are completed at a rate of one a day. There is no escape for the young idea.—[Albany Journal]

### No Obstruction!

If the country can do more, get more and save more out of normal wages, normal prices and normal living nobody ought to obstruct the deflation which has now set in. Everybody—farmer and manufacturer, capitalist and labor—ought to do his part to squeeze out still more of the unprofitable but dangerous inflation. Let her slide! —[Exchange]

## BIG APPLE CROP IS BOON

Scarcity of Most Fruits Makes Abundance of Old Standby Doubly Appreciable.

The housewife who has been puzzled over the problem of supplying her family with a desirable amount of fruit, because of the prevailing high price of that commodity, has been relieved to know that there is a large crop of New York state apples this year.

There is no better fruit than the apple, from the health viewpoint, according to the instructors in dietetics at the State College of Agriculture.

### Old Adage True

The old adage, "An apple a day keeps the doctor away," was founded on fact, say these authorities. Fortunately apples lend themselves to so many forms of cooking that no one tires of them easily. Apple sauce, baked apples, apple pies, cakes, dumplings, puddings—a long list of apple dishes awaits the choice of the woman planning well balanced, nutritious, appetizing meals at low cost.

For use during the short time that apples are out of season, it is always possible to preserve a home supply by canning, drying or making apple butter or apple jelly.

### A FAVORITES' RETURN

DeWitt Mott's Big American Beauty Revue Here All of Next Week.

The amusement lovers of Oneonta and surrounding towns are jubilant over the announcement that a really worth-while attraction has been secured by the Oneonta theatre management for next week, when the famous DeWitt Mott Musical Comedy company and American Beauty Revue, now the largest and best playing at popular prices, will hold the boards at the popular play house, presenting a repertoire of the latest and most up to date musical comedy productions.

The company is going to give a big special performance Monday matinee and night, when they will present the biggest hit in years, "Good Gracious," of 1921, an all new production, which will introduce the full strength of this large corps of fun makers. The famous beauty chorus will be seen in an especially arranged and delightful numbers, while the display of gorgeous costumes, beautiful scenery, and wonderful electrical effects will make a performance long to be remembered. If you are not a regular show goer, be one Monday and give yourself a treat, the likes of which may not be your opportunity again. There will be a complete change of program daily. Seats for Monday night's big event opens at the box office Saturday at 10 a. m.

### They Love the Bees

Skunks are causing a lot of trouble to Fred C. Harris' apiary. These animals come out early in the morning and by tapping on the hives with their paws cause the bees to come out, when they kill them with their paws and then eat them. A skunk is very fond of bees.—[Richmondville Phoenix]

## What Strikes Do

(National Crop Improvement Service.)  
UP TO five years ago, before the war sent everything out of kilter, the increase in wages was 16 per cent while the cost of living was 66 per cent.

It is estimated now that while all labor, including the down-trodden clerk and nonproducer, has risen 31 per cent, the increase in living costs has soared to 154 per cent, so it would seem that every time wages go up, the difference between wages and commodities spreads wider in direct proportion. Where it will end nobody knows.

Where is the Moses who is going to lead us out of this wilderness? Actual commodities are not different than they were. We have only derived some fool notions as to what our emolument should be. This problem is worthy of the best brains we have. We are riding for a fall. We will do either one of two things: We will agree upon what constitutes a day's labor and feed our population accordingly or civilization will revert to the dark ages and bolshevism will develop marauding bands, and we will in self-defense have to adopt the old feudal system of baronial castles or the stockades which our forefathers built as protection against the Indians.

Perhaps the world is not much worse than it ever was; but who can claim that we have any more sense than the self-serving powers of the middle ages? Where is our boasted civilization?

Perhaps the organization of every community for the benefit of all of its people, instead of encouraging class against class, is the way out, if civilization means anything.

## GOOD NEWS OF MORRIS FAIR

Visitors from This City Can Take New Oneonta-Morris State Road.

The numerous residents of Oneonta and vicinity who annually anticipate with pleasure a trip to the Morris fair, will be delighted to learn that the road now practically completed for a distance of nine miles from Morris village, will be open for traffic on Wednesday of next week, so that the long and unpleasant detour for the past few years necessary will no longer be required. Tourists from Oneonta will take the road via the Country Club to West Oneonta and at Ferguson's Corners will strike the state road, from which place there will be state road to Morris.

This statement is authorized by A. T. Paine, of this city, engineer for the State Highway department, who has charge of all state roads in this section. Work on the small remainder of the road is progressing rapidly and there is no doubt that it will be entirely completed before the end of the season. This energy on the part of the present contractors is in striking contrast to the lack of it displayed by their predecessors on the work.

The package protects the contents, and the name on the package protects you—when you buy Junata Brand Margarine.

## Champion Threshing Record

In seven and one half hours, Tice VanDewerker threshed over 650 bushels of oats on the Putnam farm, on the Fort Plain road. From 38 bushels of sowing Mr. Putnam secured over one thousand bushels of oats, weighing 50 pounds to the bushel. Edward Doran drew from the field one load which threshed out 75 bushels. Even in a good oat year like this, that was pretty near a record for this section.—[Cherry Valley Gazette]

## The Consumer's Turn

Merchants who have been selling early-acquired goods at prices based on the cost of replacement will have a margin of profit to tide them over the coming slump. And the long-suffering ultimate consumer's turn is overdue.—[Springfield Republican]

### LOCAL MENTION.

—Vito Molinari desires The Star to correct the statement that he has purchased a lot at West End and plans at once to build there. He has not bought and will not build.

—The "Star" is reported as reappearing in several places about the state. The question of combating an epidemic is serious, with the shortage of nurses that exists at the present time.

—The Normal trolley was operated for the first time this season as a one-man car yesterday. If the plan proves successful, the company will undoubtedly permanently adopt the pay-as-you-enter policy on this line.

—The C. R. McCarthy company is the first to use autumn leaves in the decoration of show windows. They are attractively used and both they and the display of goods in the window are attracting much attention.

—Assurances are given that the Elm street paving will, in large part at least, be completed the present week. The weather now is likely any day to become colder and the work is being hurried to completion to the limit of the force that can be secured for the job.

—Arthur E. Ford was delivered yesterday, by R. W. Hume, distributor for Otsego and Delaware counties for the Buick cars, a fine five passenger sedan of that popular make. This car, as well as those mentioned in The Star of yesterday, is of the new 1921 model. It is being admired by all and provides all any one could desire in a sedan.

### MORRIS FAIR NEXT WEEK.

Belgian Veterans' Band Will Furnish Music Daily.

For the Morris fair, the last but by no means the least of vicinity fairs, will have the famous Royal Belgian Veterans' band as one of the chief features and it will furnish music each day of the fair. This band is one of the big features of the Cobleskill fair, being held this week and residents of the Butternut valley and vicinity will have music second to none this year.

The fair management is sparing no pains to make the fair this year surpass all previous efforts and some excellent special attractions have been engaged and with the fine showing that is always made in all departments, with the original features of the typical agricultural fair all preserved, the fair will attract many from all this region. The outlook is bright for a successful fair.

### State's Youngest Trap Drummer.

Oneonta can boast of New York state's youngest trap drummer, that is as far as any one is aware, Maurice Lee Reynolds, age five years, son of Arthur Reynolds of 12 Cherry street, this city, bears that title. With a drum almost as large as Maurice himself, this tiny drummer had seated himself on the floor of Howland's Music store on Chestnut street and started in keeping perfect time with the lady attendant, who at the time was playing over a crowd number for a customer. A crowd soon gathered, anxious to see for themselves as it was hard to believe so small a lad could keep so perfect a time with the music. Manager Moore, attracted by the crowd gathering, which for a moment looked like serious opposition for Betty Be Good, induced the mother of Maurice to allow him to appear Saturday afternoon of this week in the Oneonta theatre for the entertainment of his kiddie patrons. This will be an extra added feature in addition to the regular picture program and something worth while that will entertain the adults as well as the children.

### Meetings Today.

All members of Royal Rebekah lodge, No. 161, are earnestly requested to attend the exercises to be held in J. O. O. F. temple tonight at 8 o'clock, for the purpose of removing the service flags. An enjoyable entertainment is promised all.

The W. B. A. O. T. M. Embroidery club will meet this afternoon at 2 o'clock with Mrs. William Yates, 79 Center street.

Anna E. Wilber auxiliary No. 4 will meet this evening at 8 o'clock in Odd Fellows' hall.

City band rehearsal this evening at 7:30.

### Meeting Postponed.

### WHAT THE MOOSE ARE DOING.

Congressman Mead and Organized Galvin to Speak at Oneonta Theatre.

The Oneonta lodge of Moose announced last night that it had secured Congressman James Mead of Buffalo and P. H. Galvin of Rochester to come to Oneonta and explain to the people the work of the Moose organization. The two gentlemen will give addresses on Friday evening of this week at 8:30 o'clock at the Oneonta theatre, between the evening performances, and will undoubtedly have something of interest to say to Oneontans. The local order extends a cordial invitation to the public to be present. Mr. Mead is the youngest man in congress at the present time, the Moose announced, and as he has spoken in this city before, his return will be awaited with interest.

The Moose also announced that they expected in the near future to secure a film of moving pictures of Mooseheart, to be shown at the Oneonta theatre. The work being accomplished at Mooseheart is known to nearly everybody, but the picture will show in detail what is being done for the widows and orphans of Moose members. Mayor Lunn of Schenectady is expected to be present at this time to explain the Mooseheart picture. The date of the filming will be announced shortly.

### TOO BUSY SELLING BUICKS.

R. W. Hume Not Identified in Any Way With Brokerage House.

Two lines of type originally set for one of the advertisements of the Buick motor car, recently were inadvertently lifted into the announcement in The Star. This may have caused some not acquainted with Mr. Hume and his principles to believe that he has been acting as agent for the Syracuse man.

To correct this erroneous impression some may have gained from the announcement, The Star wishes to inform all its readers that Mr. Hume is in no way connected with the brokerage house. Of course all his friends understand fully that he could not be persuaded to unite with any such business enterprise, but others may have been misled.

The facts are that Mr. Hume is being kept so busy endeavoring to secure Buick cars for waiting customers that he has no time for any side line, and were he to embark in another project it surely would not be with an oil selling broker. The Star's apology to him and his friends is tendered. It is confident, however, that none of its readers who know him have been misled.

### "MY LADY FRIENDS" TONIGHT.

Gave Good Satisfaction in Elmira on Recent Appearance There.

Speaking of "My Lady Friends," which comes to the Oneonta theatre tonight, the Elmira Advertiser in a recent issue said in a half a column record of the play:

Jimmy Smith certainly had a hard time of it. He made over three-quarters of a million dollars selling Bibles and had a wife who would not help him spend it. That was the basis of "My Lady Friends," the farce comedy by Emil Nyitray and Frank Mandel, from the novel by May Edgerton, which H. H. Frazee sent to the Lyceum theatre last night and which proved highly entertaining to an audience which should have been larger.

Mr. Frazee picked his company with much skill. Helen Carey was a charming young wife and proved attractive even in unattractive gowns she wore until she bought better ones. Harry Clarke proved an entertaining Jimmy Smith and brought much real talent to a role which required it. Walter Downing made a good Edmund Early.

Augusta Perry was a splendid Lucille Early and wore the most stunning gowns that have dazzled Lyceum eyes in some time, and Betty Kept was a bewitching Eva Johns. Vivian Allen won approval as Hilda.

Harold McArthur, Virginia Irwin, Georgia Burdell and Dorothy Pembroke also did good work.

### Otsego Nurses Meet Friday.

There will be a meeting of the Otsego County Nurses' association Friday afternoon at 2 o'clock in the nurses' home of the Fox Memorial hospital. The question of re-registration under the new law will be considered. A large attendance is desired.

Owen Eckler, having purchased the grocery store and meat market formerly owned and operated by A. H. Cape at West End, will close same from Sept. 3 to Oct. 3 for inventory of stock.

### ROOMS AND BEDS AT HOSPITAL.

Generous Gifts of Patients and Patrons — Complete Furnishings of New Section of Fox Memorial — Other Hospital Matters.

The numerous friends of the Fox Memorial hospital will be interested and gratified to know that the last of the rooms in the handsome annex to the original building is now furnished through the generosity of friends. This room, which is a very pleasant double apartment on the third floor, facing the east, is to be known as the Harry Digelow room, and is furnished by Harry Digelow of Worcester for his son, Harry Jr., who underwent a successful operation for appendicitis at the hospital last summer and who recently returned home. The room now permanently furnished is the one occupied by the younger Digelow during his stay at the institution. It is furnished completely with all modern accessories for two patients.

The room above referred to is the last of the six rooms and wards which by the beneficence of friends have been provided in the past year. One of these was furnished by the graduate nurses, and others by Dr. A. V. Cutler, Hon. W. L. Brown, Mr. and Mrs. O. B. Rowe and Mr. and Mrs. Henry H. Buckler, while the sixth, a ward with three beds, was provided by George I. Wilber.

In addition to the above there are three solariums, or sun parlors, in the annex. The fine furnishings for one of these was provided by M. L. Emery, who was the architect of the annex. A second has been beautifully and most comfortably furnished by Mrs. H. M. Loomis of 19 Ford avenue, and it is understood that the third will in a short time be provided for. These solariums are among the most desirable features of the hospital, providing as they do sunny quarters for convalescents at all seasons of the year.

Though all the rooms are now provided for, there still remain a few beds which no doubt the friends of the institution will see to it are furnished and suitably provided. One of these has already been furnished through the generosity of Dr. Brinkman.

### Probationers' Class at Hospital.

The probationers' class for the year 1920 is now being organized and class work will begin in October. Miss Ruby Gage, a recent graduate of the Fox Memorial hospital, who has just completed the summer course at Columbia university, has been engaged as instructor.

### A New Toy Shop.

The H. F. Rowe Publishing company, which has recently moved into the rooms formerly occupied by the Oneonta Novelty company, announce the opening of a toy shop in connection with their line of cards. The toys are of a novel character, quite out of the ordinary, featuring the Sunny Twin Dolls, the Kuddles Family of sanitary washable toys, the "Treat- 'Um-Rough" floating toys, Day-Craft products and many other exclusive articles. The public is cordially invited to come in and inspect these toys. 245 Main street, over Sniffin & VanCleave. 11

### SUPERIOR TO BINGHAMTON.

Manager Moore After Some More of The Big Ones.

Not in many moons has Oneonta been blessed with the bigger and better road attractions as has been her good fortune to receive last season and thus far this season, at least this is true of such attractions as "Betty Be Good," "The Rainbow Girl," and many others. Manager Moore claims that Oneonta's standing among the larger producers and booking offices of New York is "that compared to population Oneonta is a better show town than Binghamton," which Manager Moore states only goes to prove that they will patronize you. Big producers who have large investments in their attractions, big expensive casts, will not take a chance on the smaller cities, they can't afford to, and for this reason in order to get the better class attractions to Oneonta we have been compelled to give them big guarantees, but the managers of Oneonta and vicinity have responded generously and for this reason we will continue to try and secure the better class attractions.

Mr. Moore is now negotiating with the producers of "Lightnin'." "Lightnin'" has now passed its thousand performance on Broadway and from the outlook it will run for a thousand more. Boston and Chicago are requesting the attraction, so John Golden is organizing another company to play these two cities, and the cast will include Milton Nobles, who is Frank Bacon's understudy, and who when looking for an understudy for Mr. Bacon, Mr. Nobles was the 23rd man that was given the part to try out, and the only person who gave five performances of the part and the audiences not aware that it was not Mr. Bacon himself. Others in the cast are Bessie Bacon, Frank Bacon's sister of the New York cast, Rex Haney, Barney Gilmore and others. This will be the only company on tour, and if the producers accept our guarantee Oneonta can boast of getting the only company touring and positively the same cast and production organized to play Boston, Philadelphia, Pittsburgh, St. Louis and Chicago.

### Will Not Change Nestle's Plans.

The fact that the concerns retailing liquid milk in New York city will accept the league prices for October milk, it is announced, will have no effect upon the plans of the Nestle's Food company to close its plants in New York state for the present. The conditions have not changed which led the Nestle company to make this decision and the price agreement reached with the dealers affects in no way these engaged in condensing milk.

Wanted in Schenectady for Larceny.

Detective VanDeusen, of the Schenectady police force, came to Oneonta Tuesday and returned on the evening train with Mrs. Emma Hurley of this city and Dan Lynch, who are wanted in Schenectady on a charge of petty larceny. It is alleged that the pair had been operating in Schenectady, but so far as is known, they were not at work in Oneonta. Warrants were issued by a Schenectady judge and the arrests made by the local force.

Given Surprise Party.

A surprise party was given on Monday evening at the home of Miss Bernice Whitbeck, 51 Main street, in honor of her approaching marriage to Ernest R. Bredie, the eldest son of Mr. and Mrs. Charles Bredie of 49 Fair street. There were about 40 in attendance. The evening was spent in games, music and dancing, after which refreshments were served. Miss Whitbeck was presented with a beautiful linen table set and also other useful gifts. The guests departed at a late hour.

Examination of George Brazee.

The examination of George Brazee, charged with murder of Mrs. Anna VanPatten in Elk Creek last August, will be held before Justice Myron S. Bulson of Maryland at the grand jury rooms in the court house at Cooperstown today. District Attorney Pierson appears for the people and John G. Johnson esq. of Oneonta for the defendant. Brazee has recovered entirely from the wound received at the time of the shooting.

## MRS. PARSONS NOT A SUICIDE

Took Carbolic Acid by Mistake for Medicine—Other Statements Incorrect—Funeral at Milford.

The article, copied from the Albany Times-Union of Monday, which appeared in Tuesday morning's Star, relative to the death of Mrs. Roy Parsons, was in many respects and most unfortunately incorrect. The death of Mrs. Parsons, though due to carbolic acid, was accidental, the acid being taken by mistake for a medicine which she had been using. Also erroneous was the Albany assertion that she was about to become a mother. The above statements as to the facts were made by Mr. Parsons yesterday, and the Star, which repeats in any way to have added to the burden of his grief, wrongly corrects his original statement, which was made in good faith as coming from what was believed to be a reliable source of course. The verdict of the coroner, after investigation, was accidental death, as above stated.

The funeral, which was held at the home of E. E. Cummings in Milford yesterday, was largely attended by relatives and friends in that village and by many from Oneonta, among them a delegation from the D. & H. freight office, where formerly she was employed. There were many beautiful floral tributes, among them one of much beauty from her former associates in the Oneonta office.

The service was conducted by Rev. Nelson B. Ripley of the Milford Methodist Episcopal church, who spoke briefly but affecting, paying tribute to the life of the deceased and offering the consolation of God's word to the bereaved husband. Burial was in the Milford cemetery, and Messrs. C. L. Avery, I. D. Gorman, Ray Jewell and J. R. Riley, associates of the deceased in the freight office in this city, acted as bearers.

Mr. and Mrs. Dewey Torrey both ill.

Mr. and Mrs. Dewey Torrey are both confined to their beds at their home, 82 Maple street. Mrs. Torrey is suffering from frontal sinus and Dewey is seriously ill with typhoid fever. Both are under the care of Dr. Marx and a trained nurse from New York city. It is expected that another nurse will arrive today from Albany. Their condition is causing their family and the many friends of them both no little anxiety.

Supervisor Beach Resigns.

J. O. Beach, who for some time has been serving the town of Cherry Valley as supervisor, who who recently has been in ill health, has for that reason, resigned as supervisor. His resignation has been accepted reluctantly and John Sawyer, a former supervisor and one well equipped for the place, has been chosen in his stead.

Former Maryland Man.

Russell Burnside, attorney-at-law of New York city, son-in-law of Peter N. Dennis, of Middleburgh, who recently purchased the Stuckles cottage at Livingstonville, has also bought the Frank Benjamin house. Possession in the spring.—[Exchange.]

## "Thine Is the Glory"

This painting, which hangs in National Headquarters of the American Red Cross, Washington, depicts the homage of America's fighting men to American womanhood as mobilized for service in the World War by this organization. It is the collaborative scientific and art creation of Major Joseph Gray Mitchell, late of the General Staff, U. S. A., and F. Luis Mora, of the New York School of Art. The face of the central figure is a composite of the features of a thousand Red Cross workers selected for the purpose.

### Too Many Children.

Pontiac, Mich.—Mrs. Esther Cuneaz of Royal Oak has been held for trial in circuit court on a charge of operating a boarding house for children without a state license. It was shown that she had been refused a license. Mrs. Cuneaz recently was sued for divorce by her husband, who charged that not content with having six children of their own, she had taken nine children under six years of age into the house as boarders.

### CRAWLED EIGHT MILES

Heat-Crazed Prospector Saved Comrade by Heroic Journey Over Sand. Harry O. Stimler, a prospector, saved himself and his partner, William Corcoran, after heat and lack of water had driven both of them into delirium, by crawling eight miles across a Nevada desert. Arriving within 200 yards of his son's supply camp, after a 24-hour journey on his hands and knees, Stimler fell unconscious.

Young Stimler revived his father and then set out to aid Corcoran. He found the prospector nearly dead, but succeeded in saving him.

## NEW KIND OF THIEF

"Maid Snatcher" Has Developed in British Cities.

Result of the Intense Struggle for Servants Among English Housewives.

London.—A new kind of thief has come into existence along with the newly rich, the newly poor and the professor of England, namely, the domestic servant thief.

There are not sufficient maids to go round, and in consequence housewives are struggling and muddling through as best they can. Registry offices are sought but they cannot manufacture servants to order, or even ration them fairly. The housewife is brought completely to her wits' end, and so there has developed a mania for maid snatching which is pervading all circles where maids are necessary or desirable.

One such aspirant at a maid at all costs, noticing a promising specimen in the home of a slight acquaintance, wrote letter after letter to the maid, who at last succumbed and went after the "privileges" which were offered.

More than one would-be mistress resorts to the telephone—not once in a while, but often and systematically. Others have the audacity to make personal calls on the maid at the house where she is employed, while the less daring "hang about" outside the house when they know it is the maid's "night out."

The maid snatcher wins in the majority of cases. The bait of "more leisure," "higher wages," etc., is successful in tempting the average domestic worker, as it does most other workers.

In the case of a young girl domestic, the maid snatcher as a rule visits the home of the parents and usually finds them easy to win over into "persuading" their daughter to give in her notice and proceed to the house of the snatcher.

Nor is it the housewives alone who are guilty of these practices. The husbands are aiders and abettors more often than not. So eager are they for domestic peace that they will take any means to attain their object.

It is the maids alone who can stamp out the evil if they choose. Failing this there seems no other recourse than to pass a law against maid snatching.

### Indian's Skeleton Dug Up.

Pittsburgh, Pa.—Lying near a pile of coins struck during the reign of George III, a skeleton, believed to be that of an Indian of the Complanter tribe, was unearthed by employees of the Pennsylvania Salt Manufacturing company digging a ditch recently in the yard of Dr. G. L. Bumgarner in Federal street, Natrona. Several blue beads, carefully carved, were found with the money, which possibly was buried with the Indian to defray the cost of the trip to the "happy hunting grounds." The skeleton is believed to have been buried more than a century and a half.

## MAKE GAS FROM WASTE MATERIAL

Governments to Perfect Engineers Endeavor to Perfect Method of Utilizing Straw.

MAY HAVE ECONOMIC VALUE

An Automobile With New Fuel Has Been Operated With Straw Combustible and It Has Been Proposed for Illuminating Purposes and for Cooking.

Washington.—A gas which is obtained by the destructive distillation of wheat and rye straws is now the subject of a small scale at the States department farm of the United States, Arlington, Virginia. Although an automobile has been operated with the new illuminating gas, it has been used for cooking, the purposes as well as for are not yet possibilities of straw gas have not been fully determined, the details are being worked out. In order to determine the exact value of the gas the new orifice, engineer in charge of a subdivision of development work, is designing of the bureau of chemical industrial aid to help commercial and economic concerns to use new procedures, half-developed in the laboratory, placed in the hands of the tests with a series of production at Arlington the experimental apparatus may be.

The world's economic value, slowly but surely, can be carried on but available only to the limited funds to do much present, but it is planned quantity of that will determine the nature of the gas that may be obtained from wheat, oat, barley, corn stalks, and rice straws, and from table waste, corn cobs and other vegetable refuse usually burned as waste. Further tests of these tests warrant will be investigation the experiments plant equipped to the problem of on a scale sufficient to allow the house, possibly light and heat for his and possibly for stationary engines small industry for his tractor, from a unit can be constructed so that the farmer's fuel cost will be small, it has a certainty that the straw gas may sections obtain economic value in the material of the country where the raw is now common which the gas is made or left to rot on the fields. In some sections of the country the straw is used as a fertilizer, but in the West supply of waste there is an unlimited conversion the material available for farmer. Into light and fuel for the

While it is known possible to operate an automobile with straw gas and it produces about 50 pounds of straw will an amount about 300 cubic feet of gas—roadster it sufficient to drive a light during the 15 miles—the problem of reducing it gas to liquid form or compressed sufficiently to allow it to one that conveniently is an essential gas can be solved before straw motor fuel considered as a possible task. This will be another of the taken up by the engineers development division.

Straw Gas Not New Thing. The present gas is not a new thing. The George Herocess was developed by at Moosejarrison, a Canadian engineer operated in, in 1914, who later co-operated Macdon the project with Professor Saskatchewan of the University of Saskatchewan, Saskatoon, Canada. The United States in conjunction with the United States department of agriculture the straw gas equipment tries in experiment of chemical industries of 1918. New York city during the fall purchased this equipment was later purchased and improved by the department. The Canadian investigators with the in operating an automobile supply was produced. However, the fuel has on this carried in a large flexible of double the top of the car—a method Several it practicability. Carbon residue manufacture of the gas, turing lamp suitable for manufacture, quality is upblack of exceptionally fine, contains certain. This residue also contains again amounts of potash, phosphorus, and nitrogen compounds. The rare it fertilizing value, resulting from the process, aside from their value as disinfectants and preservatives may prove useful in the feed in pet. If the enormous quantities and producing the cost of production, in reducing the cost of production will be no doubt that straw gas will have an important commercial future.

## POVERTY IN CRIMEA

Million Rubles Go for \$25, but Meal Costs 60,000.

Newspaper Correspondent Finds No Real Money and Little to Purchase in Sebastopol.

Sebastopol, Crimea.—One million Don rubles were purchased for \$25 here by a correspondent, but afterward he paid 60,000 rubles for a meal, 10,000 more for a short cab ride and at the close of the day was a bankrupt millionaire. Crimea is in a happy condition. It has 21,000,000 of rubles, but no real money, and there is little to buy here.

The harbor is filled with the disabled warships and merchant ships. There are no cargoes on the harbor street cars have been stopped because of the lack of coal, stores have no stocks and streets are deserted except for an occasional carriage, some wounded soldiers or armed partisans. The only life here is on the beaches at the park at the entrance to the harbor. There bathers, for the most part women and wounded officers and soldiers, pass the time when not reading bulletins from the various south Russian fronts at the official news bureau. These bulletins afford depressed Crimeans much encouragement. Most women here have no hats, but wear veils or kerchiefs about their heads. Many are without stockings, but are charming, nevertheless, in bright, inexpensive gowns which they dignity with erect and independent carriage, suggestive of American women.

Six years of war have not broken the spirit of south Russian women. They "carry on" with the slight means at their disposal without complaint, and give whatever encouragement they can to men battling with bolsheviks along the Dnieper river and in the Don and Kuban territory.

Sebastopol, with its idle dockyards and railways operated only for military purposes, has not, in spite of its 80,000 inhabitants, the dynamics of a city one-tenth its size. The old Russian naval base has lost all its brilliancy, most of its warships are rusting at the docks and its industries are closed. The civilian population is awaiting resumption of export trade, which is necessary to the exchange situation and the restoration of normal trade conditions.
